

3D INTERACTIVE & PHOTOREALISTIC SUBLIME AND CUSTOMIZE ONLINE YOUR PRODUCTS

E.COMMERCE REAL ESTATE

#Fashion #Jewels #Luxury #Furnitures #Real Estate #Leather goods **#Exalt3dyourproducts**

Exalt3D solution allows you to interact in 3D with very high details, change specifications like shapes or/and colors or materials of the product. For real estate, you can customize materials, furniture or lights in the room you are visiting. All this within a web player easy to integrate in your webpage. You have a perfect visualization in all conditions, on cell phones, tablets and on PC, and on all browsers (Chrome, Firefox, Safari, Edge...).

For E-Commerce and Real Estate sector, the innovation of our solution is to combine 3D photorealism and interactivity. After 3 years of Research & Development, Exalt3D offers a very high resolution photorealistic with 3D rendering quality that replaces the photo, allows customization and interaction with an ultra-competitive price.

Exalt3D solution aims to become a leader on the 3D online market for e-commerce and for real estate market. In these two sectors, the estimate market is about 1 billion dollars per year for the next ten years.
